

Interfacing 4-wire SPI OLED Display Module to Raspberry Pi

== How to use ==

- 1, Install the C libraries of bcm2835, see: <http://www.airspayce.com/mikem/bcm2835/>
 - 2, Change the current directory to where the Makefile and oled.c file located.
 - 3, Clean the file with: make clean
 - 4, Compile the file with: make
 - 5, Run the demo with: sudo ./oled
